Play golf for free at Copenhagen Airport

You can now practice your drives and improve your putting technique at Copenhagen Airport. From 18 March to 7 April, the Nytorv area – just across from the tax free shop – will be a small golf course with a three-hole putting green and a golf simulator.

The golf simulator provides a true copy of Tiger Wood's home course: Bay Hill Disneyland in Orlando, Florida.

All passengers are welcome to play golf: the course and simulator will be open every day from 7 a.m. to 8 p.m. Use of the facilities is free, and a professional adviser will be available to help you.

Additional information is available from the airport's Communications Department on tel. (+45) 3231-2806.
