

# Families with children: – let CPH make your trip easier

## Play area

Copenhagen Airport has a Family Lounge, which is popular with children and young people. It is located on the second floor of Terminal 2, near Pier A.

The play area includes, for instance:

- ✦ A TV with children's programmes
- ✦ A table football
- ✦ A drawing table

There is also a play area in Terminal 1 with a video game console. In addition, there are small areas with play tables for young children in various places at the airport. All play areas can be used free of charge.

## Practical information

### Pushchairs

Pushchairs available are available in the transit area for use free of charge. The pushchairs are located after the big duty- and tax-free store near In Wear and Malene Birger. If you want to take your own pushchair through to the gate, you must ask your airline in advance or when you check in. You can buy a pushchair bag or rent a special pushchair transport bag at Left Luggage between Terminals 2 and 3 before security.

### Baby changing facilities

Available on the lower floor near the toilets in Terminal 2 after security. The changing room has a microwave oven if you want to heat feeding bottles or baby food. There are also chairs for breastfeeding. There are nappy-changing facilities both here and in most other toilets around the airport.

### Family track in security

During school holidays, the airport opens a special family track at the main security checkpoint where no one minds if you take a little longer to get through with your children. Look for the sign or ask a staff member.
