

# Families with children: Let CPH make your trip easier

## Play area

At Copenhagen Airport, there is a large teenage and play area which is very popular with children and young people. It is located on the second floor of Terminal 2, near Pier A.

The play area includes, for instance:

- ✦ TV with children's programmes
- ✦ Table football
- ✦ A drawing table

There is also a play area in Terminal 1 with a videogame console. In addition, there are small areas with play tables for young children set up in various places at the airport. All play areas can be used free of charge.

## Practical information

### Pushchairs

There are pushchairs available for use in the transit area without charge. The pushchairs are located opposite Ni'mat Hand & Foot Spa in Terminal 3. If you want to take your own pushchair all the way to the gate, you must ask your airline in advance or when you check in. You can buy a pushchair bag at Left Luggage between Terminals 2 and 3 before security, where you can also rent a special pushchair transport bag.

### Baby changing facilities

Available on the lower floor near the restrooms in Terminal 2 after security. The changing room has a microwave oven if you want to heat feeding bottles or baby food. There are also chairs for breastfeeding. There are nappy-changing facilities both here and in most other restrooms at the airport.

### Family track at security

During school holidays, the airport opens a special family track at the main security checkpoint where no one minds if you take a little longer to get through with your children. Look for the sign or ask a staff member.
