

## Training Object address:

- CPH / RFF training site in the South.

## Training Object Capabilities/Limitations:

- Approach exercises
- Aircraft entry
- Smoke diving exercise
- Entry via "Over-Wing Exit"
- Placement of role players, mannequins
- Ventilation exercises
- **No hot exercises or smoke diving exercises may be conducted inside the object.**

## Marking Options:

- Placement of mannequins
- Placement of role players
- Smoke machine

## **Emergency Exits/Escape Routes:**

- Through the front right door and "Over-Wing Exit"

## **Safety Team:**

- Instructor must maintain contact and supervision of participating trainees and be ready to clearly interrupt the exercise in case of an unintended incident.

## **Protective Equipment:**

- During exercises, participants must wear intervention suits, helmets, and gloves.

## **Relevant Industry Guidelines Available Electronically at CARFA:**

- "Personal Protective Equipment"
- "Safety in the Use of Ladders"
- "Safety and Health During Exercises"
- "Guidelines on Personal Safety in the Use of Fire Training Objects"

## **First Aid and Resuscitation Equipment:**

- Located in the administration/changing pavilions, just inside the main entrance.

## **Accident and Alarm Procedures:**

- Alarms are raised by the instructor via phone to OC at 32312000 or via SINE radio to OC.

## **Preparation / Review Before Using the Training Object:**

- Appointment of responsible instructor
- Ensure all emergency exits are functional
- Identify location of first aid equipment
- Ensure alarm capability
- Ensure all participants wear required protective equipment such as: helmet, gloves, intervention suit

## **Reporting Safety Deficiencies in the Object:**

- The responsible instructor is contacted and assesses whether the object is safe to use
- CARFA administrative personnel report the defect.

## **Reporting Injuries / Near-Miss Incidents:**

- Procedure D4 "Reporting of Work Injuries" is followed for CPH employees
- Form "Internal Report of Work Accident" is completed for CPH employees
- Employees from other companies must report injuries to their own employer
- Immediate supervisors of those involved are informed
- Duty incident commander is informed
- Safety representative is informed
- In case of serious accident, AMI is contacted by phone
- In case of "Near-Miss Incident," the nearest supervisor is contacted to investigate the incident and prevent future occurrences
